Journal of Sports Sciences, 1995, **13**, 529–532

Subject index

Achilles tendon tap reflex, injury prevention, preparatory exercise, stretching, warm-up, 481
Acute phase response, mood, muscle damage, nutrition, overtraining, S41
Adult respiratory distress syndrome, cytokines, endotoxins, oxygen free radicals, rowing, 109
Aerodynamics, athletics, biomechanics, discus, throwing, 125
Aerodynamics, biomechanics, long jump, Olympics, triple jump, wind velocity, 223
Amenorrhoea, bone, gender, muscle, nutrition, S35
Amino acids, caffeine, carnitine, chromium, creatine, ginseng, glycerol, sodium bicarbonate, S63
Anaerobic exercise, beverage flavouring, children, dehydration, recovery, rehydration, S31
Anxiety, distance running, running economy, self-attention, self-consciousness, 371
Artificial intelligence, biomechanics, expert systems, gait analysis, neural networks, sports techniques, 229
Athletes, carbohydrate, exercise, fat, fatigue, performance, protein, S1
Athletes, dietary strategies, guidelines, practical nutrition, S83
Athletic task, autogenic, EMG biofeedback, imagery and music training, physiological components, 343
Athletics, bioenergetics, biomechanics, females, running, sprinting, 321
Athletics, biomechanics, discus, throwing, aerodynamics, 125
Autogenic, EMG biofeedback, imagery and music training, physiological components, athletic task, 343
Autonomic nervous system, creatine, fat metabolism, glucose transport and metabolism, skeletal muscle, training, S25

Backhand, biomechanics, tennis, 141
Basketball, heart rate, lactate, time-motion analysis, 387
Beta-carotene, calcium, chromium, iron, magnesium, phosphate, vitamin C, vitamin E, zinc, S11
Beverage flavouring, children, dehydration, recovery, rehydration, anaerobic exercise, S31
Bilateral transfer, contextual interference, kayaking, negative transfer, 455
Bioenergetics, biomechanics, females, running, sprinting, athletics, 321
Biomechanics, discriminant function analysis, rowing, 377
Biomechanics, discus, throwing, aerodynamics, athletics, 125
Biomechanics, expert systems, gait analysis, neural networks, sports techniques, artificial intelligence, 229
Biomechanics, females, running, sprinting, athletics, bioenergetics, 321
Biomechanics, long jump, Olympics, triple jump, wind velocity, aerodynamics, 223
Biomechanics, tennis, backhand, 141
Bone, gender, muscle, nutrition, amenorrhoea, S35
Book reviews, 89, 171, 271, 441, 523
Brain, dopamine, endurance, exercise, serotonin, tryptophan, S49

Caffeine, carnitine, chromium, creatine, ginseng, glycerol, sodium bicarbonate, amino acids, S63
Calcium, chromium, iron, magnesium, phosphate, vitamin C, vitamin E, zinc, beta-carotene, S11
Calibration, skinfold calipers, 355
Canoe, hydrodynamics, paddle, performance, 239
Carbohydrate, energy, fat, minerals, protein, training, vitamins, S75
Carbohydrate, exercise, fat, fatigue, performance, protein, athletes, S1
Carbohydrate–electrolyte solutions, endurance, fatigue, fluid intake, sprinting, 283
Cardiorespiratory, eccentric, haematological, hormones, muscle soreness, 471
Carnitine, chromium, creatine, ginseng, glycerol, sodium bicarbonate, amino acids, caffeine, S63
Cell-mediated immunity, exercise, neoptein, overtraining, rowing, training, 207
Children, dehydration, recovery, rehydration, anaerobic exercise, beverage flavouring, S31
Chromium, creatine, ginseng, glycerol, sodium bicarbonate, amino acids, caffeine, carnitine, S63
Chromium, iron, magnesium, phosphate, vitamin C, vitamin E, zinc, beta-carotene, calcium, S11
Coaching, distance running, performance, questionnaire, specificity, training adherence, 463
Communications to the Annual Conference of the British Association of Sport and Exercise Sciences (BASES), 3
Communications to the Third International Conference on Sport, Leisure and Ergonomics, 411
Communications to the Third World Congress of Science and Football, 499
Contextual interference, kayaking, negative transfer, bilateral transfer, 455
Counter-movement jump, muscle, pendulum swing, plyometrics, strength, weight training, 101
Creatine, fat metabolism, glucose transport and metabolism, skeletal muscle, training, autonomic nervous system, S25
Creatine, ginseng, glycerol, sodium bicarbonate, amino acids, caffeine, carnitine, chromium, S63
Creatine kinase, electromyostimulation, lactate dehydrogenase, muscle soreness, urinary catecholamines, 95
Cricket, fast bowling, fatigue, 329
Critical power, running performance, $\dot{V}O_2$ max, 265

0264–0414/95 © 1995 E. & F.N. Spon

Cytokines, endotoxins, oxygen free radicals, rowing, adult respiratory distress syndrome, 109

Dehydration, fluid replacement, heat, heat acclimatization, S55
Dehydration, recovery, rehydration, anaerobic exercise, beverage flavouring, children, S31
Dietary strategies, guidelines, practical nutrition, athletes, S83
Discriminant function analysis, rowing, biomechanics, 377
Discus, throwing, aerodynamics, athletics, biomechanics, 125
Distance running, gender, sports drinks, thermoregulation, 257
Distance running, performance, questionnaire, specificity, training adherence, coaching, 463
Distance running, running economy, self-attention, self-consciousness, anxiety, 371
Dopamine, endurance, exercise, serotonin, tryptophan, brain, S49

Eccentric, haematological, hormones, muscle soreness, cardiorespiratory, 471
Editorials, 1, 93, 185, 277, 369, 445
Electromyostimulation, lactate dehydrogenase, muscle soreness, urinary catecholamines, creatine kinase, 95
EMG biofeedback, imagery and music training, physiological components, athletic task, autogenic, 343
Endocrine, hypothalamic–pituitary–gonadal axis, stress, 305
Endotoxins, oxygen free radicals, rowing, adult respiratory distress syndrome, cytokines, 109
Endurance, exercise, serotonin, tryptophan, brain, dopamine, S49
Endurance, fatigue, fluid intake, sprinting, carbohydrate–electrolyte solutions, 283
Energy, fat, minerals, protein, training, vitamins, carbohydrate, S75
Ergogenic aid, running, sodium bicarbonate, 399
Exercise, fasting, oxygen consumption, 279
Exercise, fat, fatigue, performance, protein, athletes, carbohydrate, S1
Exercise, humans, leucocytes, lymphocytes, neutrophils, platelets, 115
Exercise, neoptein, overtraining, rowing, training, cell-mediated immunity, 207
Exercise, serotonin, tryptophan, brain, dopamine, endurance, S49
Expert systems, gait analysis, neural networks, sports techniques, artificial intelligence, biomechanics, 229

Fast bowling, fatigue, cricket, 329
Fasting, oxygen consumption, exercise, 279
Fat, fatigue, performance, protein, athletes, carbohydrate, exercise, S1
Fat, minerals, protein, training, vitamins, carbohydrate, energy, S75
Fat metabolism, glucose transport and metabolism, skeletal muscle, training, autonomic nervous system, creatine, S25
Fatigue, cricket, fast bowling, 329
Fatigue, fluid intake, sprinting, carbohydrate–electrolyte solutions, endurance, 283
Fatigue, performance, protein, athletes, carbohydrate, exercise, fat, S1
Females, running, sprinting, athletics, bioenergetics, biomechanics, 321
Final consensus statement, Si
Fitness, gender, physical activity, survey, $\dot{V}O_2$ max, 297
Fluid intake, sprinting, carbohydrate–electrolyte solutions, endurance, fatigue, 283
Fluid replacement, heat, heat acclimatization, dehydration, S55
Force–time profile, rowing, variability, 187

Gait analysis, neural networks, sports techniques, artificial intelligence, biomechanics, expert systems, 229
Gender, muscle, nutrition, amenorrhoea, bone, S35
Gender, physical activity, survey, $\dot{V}O_2$ max, fitness, 297
Gender, sports drinks, thermoregulation, distance running, 257
Ginseng, glycerol, sodium bicarbonate, amino acids, caffeine, carnitine, chromium, creatine, S63
Glucose transport and metabolism, skeletal muscle, training, autonomic nervous system, creatine, fat metabolism, S25
Glycerol, sodium bicarbonate, amino acids, caffeine, carnitine, chromium, creatine, ginseng, S63
Guidelines, practical nutrition, athletes, dietary strategies, S83

Haematological, hormones, muscle soreness, cardiorespiratory, eccentric, 471
Heart rate, lactate, time-motion analysis, basketball, 387
Heart rate, racing performance, running intensity, $\dot{V}O_2$ max, 405
Heart rate analysis, hockey, time-motion analysis, 491
Heat, heat acclimatization, dehydration, fluid replacement, S55
Heat acclimatization, dehydration, fluid replacement, heat, S55
High-performance netball players, kinanthropometric and performance variables, lower-limb injuries, netball injury prediction, 213
Hockey, time-motion analysis, heart rate analysis, 491
Hormones, muscle soreness, cardiorespiratory, eccentric, haematological, 471
Humans, leucocytes, lymphocytes, neutrophils, platelets, exercise, 115
Hydrodynamics, paddle, performance, canoe, 239
Hypothalamic–pituitary–gonadal axis, stress, endocrine, 305

Imagery and music training, physiological components, athletic task, autogenic, EMG biofeedback, 343
Injury prevention, preparatory exercise, stretching, warm-up, Achilles tendon tap reflex, 481
Inverse dynamics problem, mechanical energy expenditure, modelling, speed skating, sport technique, 153

Iron, magnesium, phosphate, vitamin C, vitamin E, zinc, beta-carotene, calcium, chromium, S11

Kayaking, negative transfer, bilateral transfer, contextual interference, 455
Kinanthropometric and performance variables, lower-limb injuries, netball injury prediction, high-performance netball players, 213

Lactate, time-motion analysis, basketball, heart rate, 387
Lactate dehydrogenase, muscle soreness, urinary catecholamines, creatine kinase, electromyostimulation, 95
Leucocytes, lymphocytes, neutrophils, platelets, exercise, humans, 115
Long jump, Olympics, triple jump, wind velocity, aerodynamics, biomechanics, 223
Lower-limb injuries, netball injury prediction, high-performance netball players, kinanthropometric and performance variables, 213
Lymphocytes, neutrophils, platelets, exercise, humans, leucocytes, 115

Magnesium, phosphate, vitamin C, vitamin E, zinc, beta-carotene, calcium, chromium, iron, S11
Measurement errors, propulsive force, swimming, 447
Mechanical energy expenditure, modelling, speed skating, sport technique, inverse dynamics problem, 153
Minerals, protein, training, vitamins, carbohydrate, energy, fat, S75
Modelling, speed skating, sport technique, inverse dynamics problem, mechanical energy expenditure, 153
Mood, muscle damage, nutrition, overtraining, acute phase response, S41
Motor skill, shooting, temperature, tremor, 313
Motor skill classification, tennis performance, warm-up decrement, 247
Muscle, nutrition, amenorrhoea, bone, gender, S35
Muscle, pendulum swing, plyometrics, strength, weight training, counter-movement jump, 101
Muscle damage, nutrition, overtraining, acute phase response, mood, S41
Muscle soreness, cardiorespiratory, eccentric, haematological, hormones, 471
Muscle soreness, urinary catecholamines, creatine kinase, electromyostimulation, lactate dehydrogenase, 95

Negative transfer, bilateral transfer, contextual interference, kayaking, 455
Neoptein, overtraining, rowing, training, cell-mediated immunity, exercise, 207
Netball injury prediction, high-performance netball players, kinanthropometric and performance variables, lower-limb injuries, 213
Neural networks, sports techniques, artificial intelligence, biomechanics, expert systems, gait analysis, 229
Neutrophils, platelets, exercise, humans, leucocytes, lymphocytes, 115
Nutrition, amenorrhoea, bone, gender, muscle, S35
Nutrition, overtraining, acute phase response, mood, muscle damage, S41

Olympics, triple jump, wind velocity, aerodynamics, biomechanics, long jump, 223
Overtraining, acute phase response, mood, muscle damage, nutrition, S41
Overtraining, rowing, training, cell-mediated immunity, exercise, neoptein, 207
Oxygen consumption, exercise, fasting, 279
Oxygen free radicals, rowing, adult respiratory distress syndrome, cytokines, endotoxins, 109

Paddle, performance, canoe, hydrodynamics, 239
Pendulum swing, plyometrics, strength, weight training, counter-movement jump, muscle, 101
Performance, canoe, hydrodynamics, paddle, 239
Performance, protein, athletes, carbohydrate, exercise, fat, fatigue, S1
Performance, questionnaire, specificity, training adherence, coaching, distance running, 463
Performance evaluation, rowing, testing methods, 199
Phosphate, vitamin C, vitamin E, zinc, beta-carotene, calcium, chromium, iron, magnesium, S11
Physical activity, survey, $\dot{V}O_2$ max, fitness, gender, 297
Physiological components, athletic task, autogenic, EMG biofeedback, imagery and music training, 343
Platelets, exercise, humans, leucocytes, lymphocytes, neutrophils, 115
Plyometrics, strength, weight training, counter-movement jump, muscle, pendulum swing, 101
Practical nutrition, athletes, dietary strategies, guidelines, S83
Preparatory exercise, stretching, warm-up, Achilles tendon tap reflex, injury prevention, 481
Propulsive force, swimming, measurement errors, 447
Protein, athletes, carbohydrate, exercise, fat, fatigue, performance, S1
Protein, training, vitamins, carbohydrate, energy, fat, minerals, S75

Questionnaire, specificity, training adherence, coaching, distance running, performance, 463

Racing performance, running intensity, $\dot{V}O_2$ max, heart rate, 405
Rats, strength training, tendon strength, 291
Recovery, rehydration, anaerobic exercise, beverage flavouring, children, dehydration, S31
Rehydration, anaerobic exercise, beverage flavouring, children, dehydration, recovery, S31
Rowing, adult respiratory distress syndrome, cytokines, endotoxins, oxygen free radicals, 109
Rowing, biomechanics, discriminant function analysis, 377
Rowing, testing methods, performance evaluation, 199
Rowing, training, cell-mediated immunity, exercise, neoptein, overtraining, 207
Rowing, variability, force–time profile, 187
Running, sodium bicarbonate, ergogenic aid, 399

Running, sprinting, athletics, bioenergetics, biomechanics, females, 321
Running economy, self-attention, self-consciousness, anxiety, distance running, 371
Running intensity, $\dot{V}O_2$ max, heart rate, racing performance, 405
Running performance, $\dot{V}O_2$ max, critical power, 265

Self-attention, self-consciousness, anxiety, distance running, running economy, 371
Self-consciousness, anxiety, distance running, running economy, self-attention, 371
Serotonin, tryptophan, brain, dopamine, endurance, exercise, S49
Shooting, temperature, tremor, motor skill, 313
Skeletal muscle, training, autonomic nervous system, creatine, fat metabolism, glucose transport and metabolism, S25
Skinfold calipers, calibration, 355
Sodium bicarbonate, amino acids, caffeine, carnitine, chromium, creatine, ginseng, glycerol, S63
Sodium bicarbonate, ergogenic aid, running, 399
Specificity, training adherence, coaching, distance running, performance, questionnaire, 463
Speed skating, sport technique, inverse dynamics problem, mechanical energy expenditure, modelling, 153
Sport technique, inverse dynamics problem, mechanical energy expenditure, modelling, speed skating, 153
Sports drinks, thermoregulation, distance running, gender, 257
Sports techniques, artificial intelligence, biomechanics, expert systems, gait analysis, neural networks, 229
Sprinting, athletics, bioenergetics, biomechanics, females, running, 321
Sprinting, carbohydrate–electrolyte solutions, endurance, fatigue, fluid intake, 283
Strength, weight training, counter-movement jump, muscle, pendulum swing, plyometrics, 101
Strength training, tendon strength, rats, 291
Stress, endocrine, hypothalaminc–pituitary–gonadal axis, 305
Stretching, warm-up, Achilles tendon tap reflex, injury prevention, preparatory exercise, 481
Survey, $\dot{V}O_2$ max, fitness, gender, physical activity, 297
Swimming, measurement errors, propulsive force, 447

Temperature, tremor, motor skill, shooting, 313
Tendon strength, rats, strength training, 291
Tennis, backhand, biomechanics, 141
Tennis performance, warm-up decrement, motor skill classification, 247
Testing methods, performance evaluation, rowing, 199
Thermoregulation, distance running, gender, sports drinks, 257
Throwing, aerodynamics, athletics, biomechanics, discus, 125
Time-motion analysis, basketball, heart rate, lactate, 387
Time-motion analysis, heart rate analysis, hockey, 491
Training, autonomic nervous system, creatine, fat metabolism, glucose transport and metabolism, skeletal muscle, S25
Training, cell-mediated immunity, exercise, neoptein, overtraining, rowing, 207
Training, vitamins, carbohydrate, energy, fat, minerals, protein, S75
Training adherence, coaching, distance running, performance, questionnaire, specificity, 463
Tremor, motor skill, shooting, temperature, 313
Triple jump, wind velocity, aerodynamics, biomechanics, long jump, Olympics, 223
Tryptophan, brain, dopamine, endurance, exercise, serotonin, S49

Urinary catecholamines, creatine kinase, electromyostimulation, lactate dehydrogenase, muscle soreness, 95

Variability, force–time profile, rowing, 187
Video reviews, 361
Vitamin C, vitamin E, zinc, beta-carotene, calcium, chromium, iron, magnesium, phosphate, S11
Vitamin E, zinc, beta-carotene, calcium, chromium, iron, magnesium, phosphate, vitamin C, S11
Vitamins, carbohydrate, energy, fat, minerals, protein, training, S75
$\dot{V}O_2$ max, critical power, running performance, 265
$\dot{V}O_2$ max, fitness, gender, physical activity, survey, 297

Warm-up, Achilles tendon tap reflex, injury prevention, preparatory exercise, stretching, 481
Warm-up decrement, motor skill classification, tennis performance, 247
Weight training, counter-movement jump, muscle, pendulum swing, plyometrics, strength, 101
Wind velocity, aerodynamics, biomechanics, long jump, Olympics, triple jump, 223

Zinc, beta-carotene, calcium, chromium, iron, magnesium, phosphate, vitamin C, vitamin E, S11
